1. Purpose of Document

The purpose of this document is to briefly explain the test coverage and open issues of the [ProductName] project at the time of the release to User Acceptance Testing (UAT).

It is a phase of software development in which the software is tested in the "real world" by the intended audience or business representative.

2. Defect Analysis

This report shows the number of resolved or closed bugs at each severity level, and how they were resolved. The Defect analysis dashboard provides an overview of product defects and inspection rates. The dashboard is made up of a number of reports that analyse defects by event code, location, and production batch.
